

TOFINO SERIES GAS INSERTS

i20 | i30 | i40

ELEGANT • VERSATILE • EFFICIENT

THE NEXT GENERATION OF GAS INSERTS

Transform your existing fireplace and come home to warmth and style - introducing the new Tofino Series Gas Inserts for ultimate comfort, performance and advanced heating technology.

At Pacific Energy, it's about quality – each Tofino gas insert is masterfully engineered for high efficiency, easy operation and minimal after care. Finding the perfect fit for your home is easy, choose from three distinct firebox sizes along with two unique valve systems for maximum heat control and room ambiance.

TWO UNIQUE VALVE SYSTEMS

Find the engine that is right for you.

The S System

The full-featured SIT Proflame 2 valve system offers a split-flow burner for a greater range of flame and heat modulation, interior lighting, heat assisting fan, and basic remote control programming.

The M System

Designed for simplified function, the Maxitrol valve system offers you hi/lo flame modulation and advanced remote control programming.

SIMPLE TOUCH OPERATION AND TEMPERATURE MANAGEMENT

Tofino Inserts come standard with an advanced comfort remote control to modulate flame height for temperature management and room ambiance. Simplified on/off operation is also available with auxiliary controls integrated into each insert surround.

NEARLY INVISIBLE SAFETY SCREEN - STANDARD

When designing any heat source, safety is always at the forefront. With today's advanced technologies and materials, there's no need to compromise aesthetics for safety from little hands. That is why Tofino gas inserts come standard with an integrated micro-mesh screen that creates a virtually invisible safety barrier, allowing a clear, unobstructed view of the flame.

TOFINO SERIES - DESIGNED FOR EASY MAINTENANCE AND INSTALLATION

EASY NO TOOL FRONT INSTALLATION
